

COLLECTOR AUTOMOBILE MOTOR OIL

Collector Automobile Motor Oil has been designed to meet the unique demand of vintage, preserved, restored and classic automobile engines.

The oil contains preservatives to keep oil on the engine components even when the vehicle is stored and not run frequently.

It has a high concentration of ZDDP to protect valve-train components. The oil is formulated with detergents and dispersants to help keep your engine clean.

This product is ideal for collector automobiles and great for “newer” muscle cars, street rods and older cars currently on the road.

High-grade viscosity modifiers included in the formula do not significantly degrade with time and temperature.

Collector Automobile Motor Oil provides adequate preservative detergents, dirt-catching dispersant and higher ZDDP concentrations to reduce engine wear, especially in the area of camshaft lobe to lifter function.

SAE GRADE	15W40
DENSITY @15.5, kg /l	0.8820
VISCOSITY, cSt @40C	119
VISCOSITY, cSt@100C	14.5
VISCOSITY INDEX	140
FLASH POINT, C	216
POUR POINT, C	-33
COLOUR(ASTM)	3.5
SULFATED ASH, wt%	1.2
TBN(D2896)	11.5
ZDDP (ppm)	1600
Shear Stability mPa-s	4.4

Collector Automobile Motor Oil is blended with High viscosity base stocks and premium additive chemistry to achieve the following benefits:

High temperature piston deposit control

Foam protection

Soot dispersancy

Oil-thickening control

Oxidation inhibition

Low temperature sludge protection

Corrosion and rust inhibition

Valve train wear protection

TBN retention

Outstanding resistance to “shearing out” of viscosity grade.
